Dear Ms. Robinson:

We have received the Affidavit of Publication of notice on December 9, 2013.

The water codes require that we take no action on the application until after the expiration of a thirty-day period from the last date of publication. This time period allows concerned citizens to file any protests or objections to your proposed water use.

You will be notified when an examination of your application will be made. Please be advised that you are required to obtain authorizations before you can begin using the water applied for under this application. Please note that no construction or water use should begin before a water right authorization is obtained.

If you have any questions with regards to this letter you may contact me at 509-329-3585.

Dear Ms. Robinson:

Re: Application for change under Certificate No. 344

According to my phone conversation on October 31, 2013 with Greg Kinsinger at the Conservation District, you want Ecology to continue with the processing of your application for change to the above listed water right. As discussed with Mr. Kinsinger you will need to provide the signatures of the other land owner within the place of use and an agreement of who owns what portion of the water right. In addition, you will need to publish the enclosed Affidavit of publication and send us the original notice not a photocopy.

Your application will be skipped until such time as the required affidavit, signatures and agreement are provided. **If we do not receive the required assignments, signature and agreement within 60 days of the date of this letter, this application will be rejected without further notice.** Rejection of the applications will not affect the existing water rights.

If you have any questions or need information please contact me at (509) 329-3526 or dtol461@ecy.wa.gov.

Sincerely,

Dear Ms. Robinson:

Re: Application for Change under Certificate No. 344

The Department of Ecology (Ecology) is currently reviewing the change applications on file within Water Resource Inventory Area (WRIA) 32, the Walla Walla River Basin. Your application cannot be processed as submitted.

You will need to obtain the signatures of the other land owners within the place of use described on the water right, see enclosed map. This typically requires the land owners to agree on who owns what part of the right. The reason the signatures are required is because the place of use is significantly larger than the acres of irrigation authorized under the right, which would leave an uncertainty of who has what portion of the right.

In addition, we have not received the original Affidavit of Publication for your application. If you have not yet published the notice in a newspaper of general circulation in the area of your application, please do so as soon as possible. After publication, the publishing newspaper should provide you with a notarized original Affidavit of Publication, which should be forwarded to our office. If you published the notice but have not mailed the Affidavit of Publication to this office, please do so as soon as possible. Please remember to send the original Affidavit of Publication, not a photocopy.

If we do not receive a response within 30 days from the date of this letter, it will be assumed that you no longer have any interest in this application. At which time the application for change will be rejected. Rejection of the applications will not affect the existing water rights.

If you have any questions or need information please contact me at (509) 329-3526 or dtol461@ecy.wa.gov.
